Jakarta, Indonesia

Summary

Undergraduate computer science student at IPB University with a strong interest in programming. Possesses a fundamental understanding of data processing and algorithmic thinking. Eager to explore practical applications of artificial intelligence. A collaborative team player keen to learn and contribute to projects, gaining hands-on industry experience.

Experience

Participant, Machine Learning Workshop
Tech Community Workshop Series

Jun 2026 - Aug 2026

- Mempelajari dasar-dasar algoritma pembelajaran mesin menggunakan Python dan scikit-learn.
- Berkontribusi pada proyek kelompok untuk membangun model klasifikasi gambar sederhana.

Member, Logistics Division
University Tech Festival 2026

Apr 2026 - Present

- Membantu mengoordinasikan logistik acara dan penyiapan peralatan teknis.
- Berkontribusi pada komunikasi tim untuk memastikan alur kerja yang lancar.

Education

IPB University | Bogor, Indonesia

2025 - 2029

Bachelor of Computer Science | Expected Graduation: 2029

- Current GPA: 3.3
- Relevant Coursework: Algorithms & Programming (Python), Object-Oriented Programming, Discrete Mathematics, Data Structures, Linear Algebra for Computation, Basic Data Analysis.

Skills

- Machine Learning Fundamentals
- Basic Artificial Intelligence (AI)
- Python (Programming)
- Basic C & C++ (Programming)
- Data Analysis Concepts
- Adaptability
- Teamwork
- Problem-Solving
- Effective Communication
- Project Management Support
