SUMMARY

An IPB University Computer Science student with a strong interest in software engineering, data analysis, and algorithmic efficiency. Backed by practical experience in campus committees—specifically within multimedia and event operations teams—I am accustomed to managing visual communications, content design, and event execution. I possess a solid blend of technical expertise (hard skills) and interpersonal abilities (soft skills)—including problem-solving, time management, and team collaboration—to drive positive impact within the technology industry.

ORGANIZATIONAL EXPERIENCE

Pop Mie Campus Gaming Ground Evos x IPB E-Sports - **Agustus 2026**
Auditorium Toyib Hadiwijaya Faperta, IPB University, Bogor, Indonesia

Operations Division Staff:

- Coordinating and managing the flow of an esports/gaming tournament attended by hundreds of participants
- Adhering strictly to the event schedule and coordinating with guest stars, casters, and performers throughout the event.
- Responsively handle crisis management and resolve operational issues in the main stage area.

IPB Goes to School Kepulauan Riau - Batam, Indonesia **Januari 2026**

Multimedia Division Staff:

- Designing and producing proactive visual assets (posters, Instagram feed posts, and banners) for IPB campus outreach activities at schools in Batam and the surrounding areas.
- Managing photo and video documentation throughout the series of events for archival purposes and social media publication.
- Producing recap (aftermovie) and promotional video content that effectively boosts engagement and enthusiasm among prospective students.

EDUCATION

Institut Pertanian Bogor - Bogor, Indonesia **2025 - Present**
